PROFESSIONAL SUMMARY

Java Full Stack Developer with a strong foundation in Java, Spring Boot, React.js, SQL, and RESTful API development. Proficient in Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), and database management. Passionate about building scalable, secure, and user-focused applications through academic and personal projects. Eager to contribute to a collaborative software development team while continuously learning modern technologies.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

2023 – 2027

BTech in Information Technology | Current Year: Final Year

Experience

Innovexis - Full Stack Developer

[GitHub](#)

May 2027- July 2027 | Remote

- Developed and maintained web application features using Java and Spring Boot.
- Built and integrated RESTful APIs for frontend-backend communication
- Worked with databases such as MySQL/PostgreSQL for data management.
- Worked on a project-based internship focused on full-stack web application
- Gained hands-on experience in debugging, testing, and software development practices.;

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML, CSS

Backend Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, Spring JPA

Frontend: React.js, Redux, Tailwind CSS, Bootstrap

Databases: MySQL, PostgreSQL, MongoDB, JDBC

Testing & Quality: JUnit, Mockito, Integration Testing, Unit Testing

DevOps & Tools: Git, GitHub, Maven, Docker, Postman, IntelliJ IDEA

Cloud & Infrastructure: AWS basics (EC2, S3), Docker, CI/CD pipelines

AI & Emerging Tech: Generative AI, Prompt Engineering.

PROJECTS

JobYtra – AI Powered Job Portal & Recruitment System

Tech Stack- Spring Boot, PostgreSQL, React.js, Gemini AI, REST APIs

[GitHub](#)

- Developed a full-stack recruitment platform connecting job seekers and recruiters with role-based authentication and authorization.
- Built RESTful APIs using Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, and PostgreSQL.
- Implemented job posting, advanced job search, resume upload, application tracking, saved jobs, and recruiter/admin dashboards.
- Integrated AI-powered resume analysis, job matching, personalized job recommendations, and skill-gap analysis.

TradeX – Cryptocurrency Trading Platform

Tech Stack- Spring Boot, MySQL, JWT, React.js, Gemini AI, REST APIs

[GitHub](#)

- Developed a full-stack cryptocurrency trading platform with features including crypto buying/selling, portfolio management, wallet transfers, withdrawals, and transaction history.
- Integrated Gemini API for an AI-powered chatbot and Coin Gecko API to provide real-time cryptocurrency market data.
- Implemented secure user authentication, wallet management, and transaction processing for a seamless user experience.

CERTIFICATIONS

- Up Grad Generative AI Foundations Certificate – [upGrad](#)
- Java Spring Boot & Spring Framework with Spring AI and GenAI – [Udemy](#)
- SQL Certificate of Accomplishment – [Hacker Rank](#)

ACHIEVEMENTS & ACTIVITIES

- **AI Shield Workshop** – NIT Raipur: AI security, threat modelling, and cybersecurity practices
- **Leet Code:** Solved 100+ Data Structures problems; top 15% ranking for problem-solving efficiency
- **Hackathons:** Finalist in 1 out of 2+ hackathons; developed "Level Up Learning" EdTech website at GLY University
